

Destination: Best Vacation

Where to go on vacation is a popular conundrum for many households each year. In this paper, we are going to examine the differences between vacationing at a beach or in the city. We will look at the kinds of activities, the clothing required, and lifestyle in these two destinations.

The first major difference between vacationing on the beach or in a city is the kind of activities you can do. On the beach, for example, you can go sailing, fishing, surfing, skiing, or take advantage of the sun and lie in the sand to get tan, or even in some cases feed sharks and swim with dolphins. In a city, on the other hand, you can visit different sites such as museums, theaters, important buildings, downtown, and more. This means that you have many places to go and you will likely see more variety in the city as compared to the beach.

Another difference between vacationing on the beach or in a city is the clothing and equipment you need to take with you. If you decide to go to the beach, you will have to pack a bathing suit, shorts, short-sleeve shirts, sandals, sunglasses, goggles, and sun block. Considering that you are going to the city where you will have to walk a lot, you will need comfortable and casual clothing such as jeans and running shoes. You will likely also have to take fancy clothes in case you want to go to watch a play, listen to a concert, or go out for a nice dinner.

The final difference between vacationing on the beach or in a city is the lifestyle. If you want a relaxing holiday, your best option will be the beach. There, you will have more free time for swimming, playing, reading, and napping. In the city, conversely, you will have to schedule all your activities in order to visit as many different sites as possible.

In conclusion, there are several differences to consider when deciding where to go on vacation. Although both the beach and the city are interesting and exciting, it all depends on your preferences. Just remember that whatever you decide, you will have a great time!
